

# Questions and Answers

The following question has been submitted concerning RFP#241704 - Wastewater Treatment Services. The question received has been answered and is stated verbatim from what was received:

RESPONDER QUESTION #1 - I have of question about cost quotation part 3. I'm not charging by the hour and there will not be any additional annual cost in part 3. I will leave it at 0 unless I hear back from you.

ANSWER #1 - The purpose for the Cost Quotation Part III section is to obtain pricing for additional as-needed work which is similar but not included in the current scope of work stated in the Request For Proposal (RFP).

For example: The District may request for the Respondent to repair the backflow preventer which would require labor and parts.

Please indicate the hourly rate to perform additional as-needed services in the Cost Quotation Part III section.
